

**Customer Advisory #124 – 2009
Reefer Consumption Surcharge (RCS)**

Dear valued customers,

Effective **October 16th, 2009**, CMA CGM (America) Inc. will introduce a Reefer Consumption Surcharge (RCS) applicable to all refrigerated cargo in all trade lanes.

To date, CMA CGM has not billed the additional reefer consumption costs that are related to on board voyage expenses to our customers; we have alternatively applied a uniform BAF/EFS structure for both dry and reefer containers. In order to have a more transparent and true segregation of costs between these two very distinct segments, it has now been decided to make this an integrated and separate part of our freight surcharges. Specific charges per lane are listed below, and will fluctuate **monthly** if necessary based on the price of fuel.

Zone of Load	Zone of Discharge	Tariff	20' RCS	40' RCS
