CMA CGM Strengths

- Polish main inland hubs connected to 5 port gateways, to best match our Ocean services to your needs
- Polish and German ports: always a train connecting a vessel
- Koper new gateway from / to South Poland, unique with CMA CGM
- Rotterdam, connected 6 times per week, offering a last connection with Marseilles via Duisburg
- Satellite inland terminals connected to our main hubs to be at the closest to your business
- Intermodal offers available on ramp and door basis, to fit each of our customers' transport chain
- Intermodal tariffs always based on one-way, no pick-up neither drop-off applicable in Carrier Haulage
- Complete range of services available at inland hubs: storage, local trucking, EDI, M&R at some locations
